

TTR-2020 Ribbon – Technical Data Sheet

Product Data

The TTR-2020 ribbon is a high-performance resin ink ribbon used to print directly onto recommended Sumitag labels, designed to handle extreme environments with high scratch and solvent resistance.

- High Print Performance
- One colour - Black
- Superior scratch resistance
- Antistatic carrier film to help protect the printer

Storage:

Temperature - 15°C to 30°C
Humidity – 10 to 85% relative humidity
Avoid direct sunlight.

Compatible Printers

300 DPI Printer STP-SQX-300M-S-NC-S
STP-XD4T-300-S-NC-S
STP-EOS5-300-S-NC-S

Material:

Resin based Plastic ink. polyester film with long alkyl chain branched polymer anti-static backing film.

REACH Compliant

RoHS Compliant

Recommended for use on:

MIL, LFC continuous products
LFH Ladder formatted sleeving
CLHX Cable Labels

Property	Value	Test Method
