

TTR-510 Ribbon – Technical Data Sheet

Product Data

Storage:

Temperature - 5°C to 35°C
Humidity – 10 to 85% relative humidity
Avoid direct sunlight.

Compatible Printers

300 DPI Printer STP-SQX-300M-S-NC-S
STP-XD4T-300-S-NC-S
STP-EOS5-300-S-NC-S

Material:

Resin based black ink. polyester film with anti-static backing film.

Application Method – Stick on

The TTR-510 ribbon is a high-performance resin ink ribbon used to print directly onto recommended Sumitag labels, designed to handle extreme environments with high scratch and solvent resistance.

- High Print Performance
- One colour - Black
- Superior scratch resistance
- Antistatic carrier film to help protect the printer

Recommended for use on:

RPL/RPC panel labels
CLXI Cable Labels

Tested to MIL-STD-202F Method 215K with recommended Sumitag Products.

Property	Value	Test Method
Ink type	Resin	
Colour	Black	Visual
Total Thickness	7.5 ± 0.5 µm	Weight
Base Film Thickness	4.8 ± 0.3 µm	Weight
Ink Thickness	2.7 ± 0.2 µm	Weight
Print Density	>1.90	Densitometer
Smudge Resistance	A	Colorfastness Tester - 100 Cycles at 500 Grams with Cotton Cloth
Scratch Resistance	A	Colorfastness Tester - 50 Cycles at 200 Grams with Stainless Steel Pointed Tip
